

CHARLES KENNETH C. LABIT

Naic, Cavite / charleslabit@gmail.com / +639475468235 / [Portfolio](#)

PROFESSIONAL SUMMARY

Front-End Developer with 7 years of experience, including over 4 years specializing in modern front-end development using React.js, Next.js, TypeScript, and HTML/CSS. Skilled in API integration (REST, GraphQL) and implementing real-time features with GraphQL Subscriptions. Familiar with CI/CD workflows, UI optimization, and state management tools like TanStack Query, Zustand, and Redux. Previously worked with Node.js, Express.js, and MySQL.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS
- **State Management:** TanStack Query, Zustand, Jotai, Nuqs, Redux
- **UI & Forms:** Mantine UI, React Hook Form
- **API Integration:** REST API, GraphQL
- **Backend Familiarity:** Node.js, Express.js, MySQL, Supabase
- **DevOps & Tools:** Bitbucket CI/CD, Git, Github, Jira, AWS S3, CloudFront, Vercel
- **Testing:** Playwright (End-to-End Testing)

PROFESSIONAL EXPERIENCE

Front-End Developer | SNSoft Technology Inc.

June 2025 – Oct 2025 | Onsite · Philippines

- Maintained and developed interactive H5, web, and landing pages using React.js, TypeScript, HTML, CSS and Tailwind.
- Translated Figma designs into responsive, accessible, and cross-browser compatible UI components.
- Integrated REST APIs and real-time WebSocket communication using gRPC
- Assisted in resolving issues from the bug list in a React Native project.
- Applied MVVM architecture principles for structured and maintainable front-end development
- Contributed to a monorepo environment and collaborated with the Malaysia-based team using Git fork and upstream workflows to ensure consistent and aligned codebase management.

Front-End Developer | Awesomelab Inc.

July 2021 – March 2025 | Remote · Philippines

- Developed and maintained web applications for hotel management, CMS, HR, and data collection using Next.js, React.js, HTML, CSS, TypeScript, and Mantine UI.
- Translated Figma designs into responsive, accessible, and cross-browser compatible UI components.
- Integrated and consumed RESTful and GraphQL APIs to manage data flow.
- Collaborated on CI/CD and deployment workflows using Bitbucket and AWS CloudFront.
- Enhanced UI performance and maintainability by refactoring legacy code, optimizing data fetching with TanStack Query, reducing re-renders, and implementing Playwright for end-to-end testing.
- Followed component-based, feature-based, and custom hook architecture patterns to ensure scalability, reusability, and clean code structure across projects.

Junior Programmer | HRD Singapore Pte. Ltd.

June 2018 – June 2021 | Onsite · Philippines

- Developed and maintained an internal system for house planners, streamlining operations across inventory, automation, and data extraction.
- Migrated a legacy Magic XPA desktop app into a Vue.js-based web application using Ant Design, Node.js, Express.js, REST APIs, and MySQL.

EDUCATION

Bachelor of Science in Computer Engineering – AMA Computer College, 2018
